Borivli Rubber Works

Borivli Rubber Works (BRW) was established in the year 1966 and provided baby products with dipping process which was later expanded and included compression moulding into producing best quality baby care products complying to internationally valid standards.

Our efforts are directed at manufacturing best quality products with ultimate care and flawless production.

BRW products are made of high quality food grade material, in different sizes & shapes to promote natural development of babies.

We can develop customized design keeping safety and comfort in our mind. We are flexible to our clients need and can provide solutions in development of baby products.
